Creative and detail-oriented Frontend Developer with hands-on experience building responsive and accessible web applications. Proficient in React, Next.js, Tailwind CSS, and TypeScript, with a strong focus on reusable components, performance optimization, and modern UI/UX design. Adept at working in agile teams, mentoring junior devs, and delivering scalable solutions using real-world APIs and tools.

SKILLS

Languages & Skills

HTML5, CSS3, JavaScript (ES6+), TypeScript, Git, Webpack, Vite, Postman, Figma

Framework & Libraries

React, Next.js, Redux, Bootstrap, Tailwind CSS, Styled Components

Other Competencies

Responsive Design, REST APIs, SEO Optimization, Cross-Browser Compatibility.

EXPERIENCE

Frontend Developer

Sunmence – [January 2024 - December 2024]

- Developed a custom React component library with reusable and accessible UI elements.
- Designed responsive layouts using pure CSS and Tailwind CSS, ensuring cross-browser compatibility.
- Collaborated with backend developers to integrate APIs for user dashboards and data updates.
- Implemented Google login functionality and Firebase-based authentication workflows.

Frontend Intern & Mentor

BuggyBillions – [July 2023 - December 2024]

- Mentored and taught students the core concepts of frontend web development, including HTML, CSS, and JavaScript.
- Introduced students to modern frameworks like React and tools like Git for version control.
- Guided students in creating responsive and interactive web pages with a focus on best practices.

- Contributed to team projects with senior developers, gaining experience in building scalable and efficient web applications.
- Conducted code reviews and provided constructive feedback to improve student projects.

PROJECTS

FlickFetch – Movie Discovery Platform

React, REST API, Tailwind CSS

Built a responsive movie search platform integrating external movie APIs with dynamic UI.

 [Live Site](#) | [GitHub](#)

Shelfy – Book Cataloging App

React, Google Books API

Designed a sleek book catalog UI that fetches and displays books from external APIs.

 [Live Site](#) | [GitHub](#)

RecipeAI – AI-Powered Recipe Generator

React, Tailwind CSS, themealdb API

Developed a platform where users input ingredients, and the AI generates recipes based on those ingredients, offering personalized suggestions.

 [Live Site](#) | [GitHub](#)

QuizApp – Create and manage custom Questions

React, Tailwind CSS

Developed a platform where users can create questions and be exported as PDF
